

## Trying a different drug first

This requirement encourages you to try less costly but just as effective drugs before the plan covers another drug. For example, if Drug A and Drug B treat the same medical condition, the plan may require you to try Drug A first. If Drug A does not work for you, the plan will then cover Drug B. This requirement to try a different drug first is called “**step therapy.**”

## Quantity limits

For certain drugs, we limit the amount of the drug that you can have. For example, the plan might limit how many refills you can get, or how much of a drug you can get each time you fill your prescription. For example, if it is normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day.

### Section 5.3 Do any of these restrictions apply to your drugs?

The plan's Drug List includes information about the restrictions described above. To find out if any of these restrictions apply to a drug you take or want to take, check the Drug List. For the most up-to-date information, call our Customer Care Center (phone numbers are on the back cover of this booklet) or check our website [www.universitycareadvantage.com](http://www.universitycareadvantage.com).

**If there is a restriction for your drug, it usually means that you or your provider will have to take extra steps in order for us to cover the drug.** If there is a restriction on the drug you want to take, you should contact our Customer Care Center to learn what you or your provider would need to do to get coverage for the drug. If you want us to waive the restriction for you, you will need to use the formal appeals process and ask us to make an exception. We may or may not agree to waive the restriction for you. (See Chapter 9, Section 7.2 for information about asking for exceptions.)

## SECTION 6 What if one of your drugs is not covered in the way you'd like it to be covered?

### Section 6.1 There are things you can do if your drug is not covered in the way you'd like it to be covered

Suppose there is a prescription drug you are currently taking, or one that you and your provider think you should be taking. We hope that your drug coverage will work well for you, but it's possible that you might have a problem. For example:

- **What if the drug you want to take is not covered by the plan?** For example, the drug might not be covered at all. Or maybe a generic version of the drug is covered but the brand name version you want to take is not covered.
- **What if the drug is covered, but there are extra rules or restrictions on coverage for that drug?** As explained in Section 5, some of the drugs covered by the plan have extra

rules to restrict their use. For example, you might be required to try a different drug first, to see if it will work, before the drug you want to take will be covered for you. Or there might be limits on what amount of the drug (number of pills, etc.) is covered during a particular time period. In some cases, you may want us to waive the restriction for you. For example, you might want us to cover a certain drug for you without having to try other drugs first. Or you may want us to cover more of a drug (number of pills, etc.) than we normally will cover.

- **What if the drug is covered, but it is in a cost-sharing tier that makes your cost sharing more expensive than you think it should be?** The plan puts each covered drug into one of 3 different cost-sharing tiers. How much you pay for your prescription depends in part on which cost-sharing tier your drug is in.

There are things you can do if your drug is not covered in the way that you'd like it to be covered. Your options depend on what type of problem you have:

- If your drug is not on the Drug List or if your drug is restricted, go to Section 6.2 to learn what you can do.
- If your drug is in a cost-sharing tier that makes your cost more expensive than you think it should be, go to Section 6.3 to learn what you can do.

<b>Section 6.2</b>	<b>What can you do if your drug is not on the Drug List or if the drug is restricted in some way?</b>
--------------------	---

If your drug is not on the Drug List or is restricted, here are things you can do:

- You may be able to get a temporary supply of the drug (only members in certain situations can get a temporary supply). This will give you and your provider time to change to another drug or to file a request to have the drug covered.
- You can change to another drug.
- You can request an exception and ask the plan to cover the drug or remove restrictions from the drug.

### **You may be able to get a temporary supply**

Under certain circumstances, the plan can offer a temporary supply of a drug to you when your drug is not on the Drug List or when it is restricted in some way. Doing this gives you time to talk with your provider about the change in coverage and figure out what to do.

To be eligible for a temporary supply, you must meet the two requirements below:

#### **1. The change to your drug coverage must be one of the following types of changes:**

- The drug you have been taking is **no longer on the plan's Drug List.**

- -- or -- the drug you have been taking is **now restricted in some way** (Section 5 in this chapter tells about restrictions).

**2. You must be in one of the situations described below:**

- **For those members who were in the plan last year and aren't in a long-term care facility:**

We will cover a temporary supply of your drug **one time only during the first 90 days of the calendar year**. This temporary supply will be for a maximum of 31 days, or less if your prescription is written for fewer days. The prescription must be filled at a network pharmacy.

- **For those members who are new to the plan and aren't in a long-term care facility:**

We will cover a temporary supply of your drug **one time only during the first 90 days of your membership** in the plan. This temporary supply will be for a maximum of 31 days, or less if your prescription is written for fewer days. The prescription must be filled at a network pharmacy.

- **For those members who are new to the plan and reside in a long-term care facility:**

We will cover a temporary supply of your drug **during the first 90 days of your membership** in the plan. The first supply will be for a maximum of a 31 day supply, or less if your prescription is written for fewer days. If needed, we will cover additional refills during your first 90 days in the plan.

- **For those members who have been in the plan for more than 90 days and reside in a long-term care facility and need a supply right away:**

We will cover one 31 day supply, or less if your prescription is written for fewer days. This is in addition to the above long-term care transition supply.

To ask for a temporary supply, call our Customer Care Center (phone numbers are on the back cover of this booklet).

During the time when you are getting a temporary supply of a drug, you should talk with your provider to decide what to do when your temporary supply runs out. You can either switch to a different drug covered by the plan or ask the plan to make an exception for you and cover your current drug. The sections below tell you more about these options.

### **You can change to another drug**

Start by talking with your provider. Perhaps there is a different drug covered by the plan that might work just as well for you. You can call our Customer Care Center to ask for a list of covered drugs that treat the same medical condition. This list can help your provider find a covered drug that might work for you.

## **You can ask for an exception**

You and your provider can ask the plan to make an exception for you and cover the drug in the way you would like it to be covered. If your provider says that you have medical reasons that justify asking us for an exception, your provider can help you request an exception to the rule. For example, you can ask the plan to cover a drug even though it is not on the plan's Drug List. Or you can ask the plan to make an exception and cover the drug without restrictions.

If you are a current member and a drug you are taking will be removed from the formulary or restricted in some way for next year, we will allow you to request a formulary exception in advance for next year. We will tell you about any change in the coverage for your drug for the following year. You can then ask us to make an exception and cover the drug in the way you would like it to be covered for the following year. We will give you an answer to your request for an exception before the change takes effect.

If you and your provider want to ask for an exception, Chapter 9, Section 7.4 tells what to do. It explains the procedures and deadlines that have been set by Medicare to make sure your request is handled promptly and fairly.

<b>Section 6.3</b>	<b>What can you do if your drug is in a cost-sharing tier you think is too high?</b>
--------------------	--

If your drug is in a cost-sharing tier you think is too high, here are things you can do:

### **You can change to another drug**

If your drug is in a cost-sharing tier you think is too high, start by talking with your provider. Perhaps there is a different drug in a lower cost-sharing tier that might work just as well for you. You can call our Customer Care Center to ask for a list of covered drugs that treat the same medical condition. This list can help your provider find a covered drug that might work for you.

### **You can ask for an exception**

For drugs in Tier 2 and 3, you and your provider can ask the plan to make an exception in the cost-sharing tier for the drug so that you pay less for it. If your provider says that you have medical reasons that justify asking us for an exception, your provider can help you request an exception to the rule.

If you and your provider want to ask for an exception, Chapter 9, Section 7.4 tells what to do. It explains the procedures and deadlines that have been set by Medicare to make sure your request is handled promptly and fairly.
